Ask your dealer today for 20 Mule Team Borax. Sold in packages only.

Automobile for hire, by the day or our; fine, new Buick car, can carry five passengers; will go anywhere. Jones & Nye's livery stable, Depot square.

## Recovered From

## Severe Lung Trouble

While we all know that plenty of fresh air and good food are necessary to persons suffering from lung trouble, something more is needed to bring about full health. Eckman's Alternative is a medicine for throat and lung troubles, and so many reports have been received showing that it brought about good results in a number of cases which were declared hopeless, that all sufferers who are not benefiting otherwise, should, at least investigate what it has done for others. It may be the means of restoring you to health. Investigate this case:

Madison Lake, Minn.  
"Gentlemen: In December, 1908, and March, 1909, I was taken with hemorrhages of the lungs, which confined me several weeks each time. These left me very weak and I coughed at night and could not sleep. My appetite also failed me. My doctor advised me to go West. So, in September, 1909, I planned to go, but I had four more hemorrhages, which put me in bed for three weeks. In November I started for Denver, Colo. After my arrival, I met Michael Brody, who, upon learning of my condition, urged me to take Eckman's Alternative. I kept on taking the medicine and improved fast. In March, 1910, I returned home. I think I am entirely well, have a good appetite and sleep well. When I left Denver my weight was 150 pounds. I now weigh 185, my normal weight. I thank God and your Alternative for my health. If I can help any other person suffering from Tuberculosis, I will gladly do so."

(Signed affidavit) PAUL L. FARNACH.  
Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratories, Philadelphia, Pa., for more evidence. For sale by all leading druggists and Red Cross Pharmacy Barre, Vt.

## PLAINFIELD.

Mrs. Flora Whipple has returned from several days' visit in Hardwick and Walden with relatives.

L. F. Fortney has gone to Boston for a short business trip.

Mrs. Freedom Hill, who has been quite ill with bronchitis, remains about the same. Mrs. Clara Cloake is caring for her.

Mr. and Mrs. Dean Hill of Boston spent part of last week with John Hill. Misses Jane and Abbie Clark visited their cousin, Mrs. Oriana Mears of Marshfield part of last week.

Mrs. Wheeler Batchelder spent part of last week in East Montpelier with Mr. and Mrs. Earl Bartlett.

Prof. and Mrs. Jesse Tibbets of Cabot were in town Thursday.

Henry Thurston of New Jersey recently visited his sister, Mrs. Henry Batchelder.

Mr. and Mrs. Guy Batchelder and children of Old Orchard, Me., visited relatives in town last week.

William Prescott is moving his family to the farm recently purchased of Robert Lindham.

Mrs. Mary Templeton of East Montpelier visited her cousin, Mrs. Mandana Goodenough, Thursday of last week.

Mrs. T. H. Bartlett recently visited relatives in Greensboro.

Mrs. L. M. Johnson returned Saturday from several weeks' visit in Lebanon, N. H., and Boston, Mass.

Mrs. Joseph Bartlett and Mrs. Roy Richards spent Thursday and Friday in St. Johnsbury with Mrs. Helen Moore and Mr. and Mrs. Gardner Spencer.

Mrs. Wilbur Bartlett was in Randolph last week visiting Mr. and Mrs. Nelson Morse.

Mrs. Roxana Kellogg of Randolph is spending a few days with Mr. and Mrs. Clement Kellogg.

Arthur Bolles leaves Tuesday for Seattle, Washington, for an indefinite stay. Mr. and Mrs. W. S. Martin and children have returned to Cambridge, Mass., after spending the summer at the Martin farm.

The Marshfield Stars played an interesting game of baseball with the Plainfield boys in John Ryan's field Saturday afternoon. The score was 7 to 0 in favor of the local boys.

Mrs. Jonathan Perkins of Montpelier spent Saturday and Sunday in town with friends and relatives.

Mrs. Ida Laird has returned from a few days' visit in Boston and other points in Massachusetts.

Miss Alice Clark and Miss Cornelia Silver left Saturday and Sunday at their homes in Marshfield and Montpelier.

## EAST BARRE.

Miss Grace Locklin spent the week-end as the guest of Mr. and Mrs. B. F. Davis of Trow Hill.

The many friends of Mrs. Edward Bacon remembered her birthday last Saturday by giving her a post card shower which was much appreciated.

Mr. and Mrs. Dorman Magoon of East Orange spent the week-end at the home of Mr. and Mrs. H. E. Sargent.

Washington grange will hold a fair Thursday, Friday and Saturday evening of this week. There will be an excellent program each evening.

Silver Leaf circle will hold its regular meeting Tuesday evening of this week.

Mrs. Clarence Tucker returned Saturday from Plainfield, where she has been visiting the past two weeks.

The W. C. T. U. wish to acknowledge the receipt of \$22.00 from the "Down in Maine" club and to voice their appreciation of the same. The money will be spent in purchasing new volumes for the library.

A new bookcase is needed and at the last meeting a committee was appointed to look after this matter.

Mrs. Merton Pratt of St. Louis visited at the homes of Mr. and Mrs. A. C. Coleman and Mr. and Mrs. H. E. Sargent the past week.

## RANDOLPH.

Miss Ada Forsythe, who has been with Mrs. Fred Curtis for several days, left Monday for her home in Philadelphia.

Mrs. Annie Marshall and three children and Mrs. Henry Fitts left Monday night for Covina, Cal., where they go to pass the winter, and they may make a permanent home there. Miss Mary Gilson, who has been here for the summer, also started on her return trip to San Diego, Cal., on Monday night, starting from Bethel, where she had been visiting Mrs. Sarah Sturtevant.

F. H. Hopkins of Boston has been with his sister, Mrs. H. W. Lewis, since last week.

Miss Hattie Sawyer of Malden, who has been at Randolph Center for a week with Mrs. Clara Sawyer, left Monday for Concord, N. H., and from there will proceed to her home.

Misses Clara and Frances Bucklen, who have for several months been making their home in the Stockwell block left Monday for Wilmington, expecting to remain there for the present.

Mrs. Herbert LaMer, who has been passing three weeks in town with relatives, went to Northfield Monday to visit her mother before returning to her home in West Somerville, Mass.

Mr. and Mrs. Alonzo Emery left Monday for Baltimore and Rutland, after a short trip there will go to Scranton, Pa., to visit Mr. Emery's son Clarence Emery, expecting to be gone several weeks.

Mrs. F. W. Ingalsbee and children after a stay of a year with Mrs. Ella Bixby, left Sunday night for Bethel, Me., where she will be joined by her husband, and they will go on to Montana, for their home for the present.

Miss Mary Wedgwood, who has been with her mother, Mrs. W. F. Wedgwood, for a month, left for Chicopee, Mass., on Monday, to resume work in the library there.

## "Gee! That ZEMO Feels Good, Ma!"

For Prickly Heat, Pimples, Blotches, Blackheads, Eczema and Dandruff, ZEMO is a New Wonder.

At last, a remedy for skin troubles that makes every body smile and say, "Hoo-ray, I've found it at last!" ZEMO is really extraordinary, as any man or woman can prove immediately at a cost

of only a few cents. If you have prickly heat, eczema, irritated or inflamed skin, blotches, pimples or blackheads, you will marvel at the results of ZEMO after a few applications.

You can't realize it until you have used it. Get a 25-cent bottle first, to prove to yourself conclusively that you never heard of or bought anything like it in all your life.

ZEMO gives instant relief, pain disappears, sores and rashes leave you. When you apply ZEMO, it sinks right in and disappears. Then, behold, your skin troubles vanish! A few applications of ZEMO will stop dandruff.

ZEMO is absolutely safe. It will make your skin feel as balmy as a June morning. Try it after shaving, it gives the skin a treat.

ZEMO is sold in 25-cent and \$1 bottles, or sent direct on receipt of price by E. W. Rose Medicine Co., St. Louis, Mo. Try a 25-cent bottle and when convinced, get a \$1 bottle which contains six times as much as the 25-cent bottle.

## MONTPELIER.

Whiskey, 60 Gallons, and Wine, 33 1/2 Gallons Seized at C. V. Station.

United States Marshal Horace W. Bailey seized ten cases of Dungan's Club whiskey, each case containing 24 quarts, and a barrel of wine containing 33 1/2 gallons at the Central Vermont station yesterday, as it was alleged the boxes were not properly labeled with the quantity and name of the contents, as required by law.

Tilda Jane Cushman, aged 16, and Frank Lapan, aged 19, were married Saturday at the home of the bride's father, Henry Cushman, by the city clerk, James J. Monaghan, who has been employed at Miller's inn for several years, has purchased the home bakery and lunch room operated for two years by Miss Emma O'Neil.

W. E. Terrill, who has been ill with typhoid fever for some months at Heaton hospital, has recovered sufficiently to be removed to his home.

Snow was reported yesterday toward Worcester and Middlesex.

## "BOUGHT AND PAID FOR."

The success of "Bought and Paid For," George Broadhurst's most recent triumph, which comes to the opera house next Friday, Oct. 4, cannot be denied even by its most envious competitor for public favor. Already it has to its credit one solid year's run at William A. Brady's playhouse in New York.

Scene from Act IV, "Bought and Paid For."

Its hold upon the public will better be realized when it is remembered that of these performances many were given during a rain through hot summer nights. Without question this play of marital perplexity has been one of the history-making events of the New York stage of the last ten years.

Strong and gripping in its construction, and charming and forceful in its dialogue, it sets up to prove no common. It is merely a play of intense human nature and heart interest, with touches of realism which every man or woman who sees it must recognize at a glance.

Following his custom of allowing the author of a play considerable voice in the selection of a cast, Mr. Brady with the cooperation of Mr. Broadhurst has chosen an excellent company of players for "Bought and Paid For." The leading part, Robert Stafford, will be played by George MacQuarrie, William Carlyle will be seen in the comedy character of Jimmy Gilley; Virginia Blaine, about whom the play revolves, will be played by Helena de Kay; while Fanny Blaine, the sister, has been entrusted to Maude Allen, and Miss Helen MacKellar will be seen as Josephine, the French maid.

## Fortunes in Faces.

There's often much truth in the saying, "Her face is her fortune," but it's never said where pimples, skin eruptions, blotches, or other blemishes, disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them. 25 cents at the Red Cross Pharmacy—Advt.

## DANGER PERIOD OF WOMAN'S LIFE FROM 45 to 50

Interesting Experience of Two Women—Their Statements Worth Reading.

Asheville, N.C.—"I suffered for years with female trouble while going through the Change of Life. I tried a local physician for a couple of years without any substantial benefit. Finally after repeated suggestions to try Lydia E. Pinkham's Vegetable Compound, I quit my physician and commenced using it with the happiest results. I am today practically a well woman and anxious to contribute my mite towards inducing others to try your great medicine, as I am fully persuaded that it will cure the ailments from which I suffered if given a fair chance.

"If you think this letter will contribute anything towards further introducing your medicines to afflicted women who are passing through this trying period, it is with great pleasure I consent to its publication."—Mrs. JULIA A. MOORE, 17 East St., Asheville, N.C.

## The Case of Mrs. Kirkin.

Circleville, Ohio.—"I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound.

"Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life."—Mrs. ALICE KIRKIN, 358 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

## WHAT SCIENCE IS DOING.

With Particular Reference to Disease—A Medical Opinion.

"No philosophy evolved from the inner consciousness of man has ever done half the good that has been secured to him by the discovery of the agents of infection. In fact, no discovery in science has failed to better the lot of man." With these significant words Prof. W. C. Vaughan of the University of Michigan replies to the strictures of those modern writers who charge science with being essentially materialistic in its aim and scope. These philosophers, evolving what they assume to be an exact measure, what constitutes human welfare and social and racial betterment. Scientific men build their idealism solidly up from the ground; they do not hang it precariously from star-beams. "The foundation stone of my philosophy," writes Professor Vaughan, "is the doctrine of evolution." He points out that we deal not with superhuman forces which man cannot know, cannot modify, cannot study, but rather with potent factors that call for the best effort in behalf of the race. What higher incentive can there be, for example, to keep one's self clean morally and physically than the facts derived from the study of heredity? And when the added undeniable influences of environment in the modification and improvement of the species is taken into account, it is apparent that every effort to improve the conditions under which men live is based on motives quite as dignified and worth while as the musings of the philosopher who claims to cultivate the good and beautiful for its own sake.

It is timely, says The Journal of the American Medical Association, to refute the charges of materialism which are now and then preferred against science. The Vaughan points out, our knowledge of the spread of infection is the strongest factor in the social movements of the day. Disease still takes a heavy toll. Ignorance and deep-seated prejudice still are often found retarding progress in unexpected quarters. The philosophy of science concerns itself with this world and this life and reaches every condition. It is a truth which will bear insistence and repetition that the fruits of science are a high noble and powerful incentive to righteousness. To widen the domain of knowledge, be it ever so little, to abate disease, to lessen pain and suffering, to decrease the burden of poverty, to brighten and ennoble the lives of others, to harness the forces of nature and make them subservient to man's will and contributory to his happiness, is to make man more considerate for his fellow, to appreciate and perform his duties—these are some of the things that science has done and is doing."

Iowa's Clay Products Valued at \$4,432,874.

The value of the brick, tile, fireproofing, pottery, and various other clay products made in Iowa in 1911, according to the United States Geological Survey, was \$4,432,874. This is a considerable increase compared with the figures for 1910.

## NO MORE DANDRUFF FALLING HAIR GRAY HAIR

Men and women—do you want a splendid head of luxuriant hair free from scalp itch and dandruff? Do you want hair so bewitchingly radiant that it compels the admiration of all who see it? Do you want a scalp as immaculately clean and bright as a newly minted coin? If you do, get a 50-cent bottle of PARISIAN Sage-to-day, at dealers everywhere. The girl with the auburn hair is on every carton and bottle—Ask for PARISIAN Sage and see that you get it. The Red Cross Pharmacy guarantees it.

## PURPOSES OF THE COLLEGES.

It Is to Train Persons in the Teaching Profession.

The original purpose of American colleges was mainly to train men for the ministry, but so it is no longer. Harvard, founded chiefly to educate clergymen, now gives to this profession barely 2 per cent of her graduates; Yale, begun under similar impulses, now contributes a meager 3 per cent. This and other interesting changes in the professions favored by college graduates are described in a bulletin by Bailey B. Burritt on "Professional Distribution of University and College Graduates," just issued by the United States bureau of education.

The decline in the numbers going into the ministry has been accompanied by a rise in the professions of teaching, law, and business. All three have been more or less consistent gainers at the expense of the ministry.

When the older colleges were established boys who expected to be the business men of the community rarely gave much thought to "higher education." That was for the "learned professions," most often, in the early days, the ministry. It is only of recent years that men with business careers ahead of them have been taking advantage of college opportunities.

At Harvard the ministry yielded the leadership to law after the Revolutionary war, and law remained the dominant profession of Harvard graduates until 1880, when business took the lead. At Yale the ministry was supplanted successfully by law until after the middle of the nineteenth century, when law took the ascendancy and kept it until 1895, being then displaced by business. At the university of Pennsylvania one-fourth of the graduates went to go into the ministry; now about one-fifth do so. Oberlin college, founded with strong denominational tendencies, shows the same story of the decline in numbers of men going into the ministry. At the university of Michigan, out of an army of over 15,000 graduates, only 188 have become ministers.

Aside from their contributions to the clergy, most of the universities and colleges have had favorite professions. At Columbia, Dartmouth, and Michigan, for instance, it is law; at Pennsylvania it is medicine; at Oberlin, Wisconsin, and many others, particularly the co-educational institutions, it is teaching; while a few of the universities, Brown, for example, have shown an impartial spirit, dividing up their strength almost equally among four leading professions.

A final summary of 37 representative colleges shows that teaching is now the dominant profession of college graduates, with 25 per cent; business takes 20 per cent; law, which took one-third of all the graduates at the beginning of the nineteenth century, now claims but 15 per cent; medicine takes between 6 and 7 per cent, and seems to be slightly going up, but still takes only 3 or 4 per cent; while the ministry, with its present 5 or 6 per cent of the total, has reached the lowest mark for that profession in the two and a half centuries of American college history.

## India's Butter Trees.

"But by far the most remarkable of edible flowers is that culled from the butter-tree of India. The blossoms of this singular tree are the chief means of subsistence with the Bhils and other Indian hill tribes. An average tree yields from two hundred to three hundred and fifty pounds of pulpy, bell-shaped flowers, that, when they drop off during March and April the hot months of the Indian year, are eagerly gathered by the natives. They have, when fresh a peculiar and luscious taste, but the fragrance of them is not pleasant, and is best and most briefly described as 'mousy.' Usually they are cured in the

## C.W. AVERILL &amp; CO. WANT TO SEE YOU

They Want to Show You Plastergon Wallboard and Prove to You That for Walls and Ceilings Nothing Yet Invented Can Compare With It.

It makes no difference whether you are building a mansion, a small home, a cottage or garage; you surely ought to see Plastergon before you go further.

Perhaps you are preparing to remodel some rooms or put a lovely extra room in the attic—you can do it with Plastergon and do it better, cheaper and quicker than with old-fashioned lath and plaster. You must see Plastergon before you can realize what a really wonderful wallboard it is—once you see it is on to stay; it never wears out, cracks or breaks.

Anyone can put it on; it is moisture proof, vermin proof, fire and sound retarding.

It is the only treated wallboard in use. It resists heat and cold, which means that your rooms will be colder in summer and warmer (saving coal bills) in winter.

Plastergon is furnished in panels of just the proper size to suit requirements. With it the most handsome designs can easily be arranged to suit parlor, library, living-room, dining-room or bedroom.

As an interior finish, for garages, offices, factories or restaurants, it is economical and appropriate.

See C. W. Averill & Co. about Plastergon, the guaranteed wallboard, the first chance you get. They will tell you that the Plastergon Wall Board Company of Tonawanda, N. Y., have a service department that will gladly furnish you, without cost, a complete panel design and estimate for your requirements. Sample of Plastergon furnished on request.—Advt.

Barre, Vt.

sun, shrivel to one-fourth of their size, and then resemble nothing so much as raisins. The natives prepare them for food by boiling, or using them in sweet meats.—Suburban Life Magazine for October.

## Liver Sluggish? Go To Your Doctor

"How are your bowels?" This is generally the first question the doctor asks. He knows what a sluggish liver means. He knows that headaches, bilious attacks, indigestion, impure blood, are often promptly relieved by a good liver pill. Ask him if he approves of Ayer's Pills. Then follow his advice.

## In Wages or Profit

health, sooner or later, shows its value. No man can expect to go very far or very fast toward success—no woman either—who suffers from the headaches, the sour stomach and poor digestion, the unpleasant breath and the good-for-nothing feelings which result from constipation and biliousness. But just learn for yourself what a difference will be made by a few doses of

## BEECHAM'S PILLS

Tested through three generations—favorably known the world over this perfect vegetable and always efficient family remedy is universally accepted as the best preventive or corrective of disorders of the organs of digestion. SEE FLYERS FOR PARTICULARS

## FARM TALK

You have a lot of things now to make the pigs thrive—small potatoes, apples, pumpkins, corn, etc., and the way to cook these things is in a "Farmer's Boiler." Don't monopolize the kitchen stove, and then holler because dinner isn't ready on time—a 50 gal. Boiler only costs \$12.50, and it will be useful for heating water when you come to dress these same pigs. Buy one of these Boilers, and you will wonder how you ever got along without it.

A. W. ALLEN, Averill Mills
